## Great Sound Runs In The Family

We designed Proficient Protege Cabinet Loudspeakers for today's listen environments. Before we put pen to paper, we researched emerging audio technologies like Dolby Atmos® and DTS:X® and took a hard look at the way homeowners want loudspeakers to look and play in their homes. The result is a complete line of speakers built to sound great in any system in any home—and to look really good in any room.

Our Proficient Protege Cabinet Loudspeakers have a smooth, stealthy matte black look that blends with any decor. Every model features the best combination of drivers we've ever assembled: precise, powerful graphite woofers paired with exceptionally accurate silk dome tweeters.

### LFS6 Dual 6" Floor Standing Speaker

Our top-of-the-line Floor Standing speakers sound amazing with or without a subwoofer. Dual 6" graphite woofers in a carefully tuned floor standing enclosure deliver pounding bass powerful enough for rock, R&B and the most intense action movies. The smooth midrange of the ultra-light, ultra-rigid graphite cones combines with the sweet sound of a 1" silk dome tweeter to keep everything from female vocals to flutes sounding airy and natural, like they're right there in the room with you. The LFS6 has a matte black finish and removable black grille with neo-magnets. Add the LDA5 speaker to turn the LFS6 into an immersive sound system compatible with Dolby Atmos and DTS:X.
